**STATEMENT OF MANAGEMENT'S RESPONSIBILITIES FOR THE PREPARATION AND
APPROVAL OF THE UNAUDITED CONDENSED CONSOLIDATED INTERIM
FINANCIAL STATEMENTS FOR THE THREE AND SIX MONTHS ENDED 30 JUNE 2019**

The following statement, which should be read in conjunction with the auditor's responsibilities stated in the report on review of interim financial information, is made with a view to distinguishing the respective responsibilities of management and those of the auditor in relation to the unaudited condensed consolidated interim financial statements of Public Joint Stock Company Magnitogorsk Iron & Steel Works and its subsidiaries (the "Group").

Management is responsible for the preparation of the unaudited condensed consolidated interim financial statements as at 30 June 2019 and for the three and six months period then ended, in accordance with International Accounting Standard 34 "Interim Financial Reporting".

In preparing the unaudited condensed consolidated interim financial statements, management is responsible for:

- properly selecting and applying accounting policies;
- presenting information, including accounting policies, in a manner that provides relevant, reliable, comparable and understandable information;
- providing additional disclosures when compliance with the specific requirements in IFRS are insufficient to enable users to understand the impact of particular transactions, other events and conditions on the Group's financial position and financial performance; and
- making an assessment of the Group's ability to continue as a going concern.

Management is also responsible for:

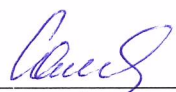

- designing, implementing and maintaining an effective and sound system of internal controls, throughout the Group;
- maintaining adequate accounting records that are sufficient to show and explain the Group's transactions and disclose with reasonable accuracy at any time the financial position of the Group, and which enable them to ensure that the unaudited condensed consolidated interim financial statements of the Group comply with IFRS;
- maintaining statutory accounting records in compliance with statutory legislation and accounting standards;
- taking such steps that are reasonably available to them to safeguard the assets of the Group; and
- preventing and detecting fraud and other irregularities.

The unaudited condensed consolidated interim financial statements for the three and six months ended 30 June 2019 were approved on 31 July 2019 by:

Report on Review of Unaudited Condensed Consolidated Interim Financial Statements

To the Shareholders and Board of Directors of Public Joint Stock Company Magnitogorsk Iron & Steel Works and Subsidiaries:

Introduction

We have reviewed the accompanying unaudited condensed consolidated statement of financial position of Public Joint Stock Company Magnitogorsk Iron & Steel Works and its subsidiaries (together – the “Group”) as at 30 June 2019 and the related unaudited condensed consolidated statements of profit or loss and other comprehensive income for the three-month and six-month periods then ended, unaudited condensed consolidated statements of changes in equity and cash flows for the six-month period then ended, and the related explanatory notes. Management is responsible for the preparation and presentation of these condensed consolidated interim financial statements in accordance with International Accounting Standard 34, “Interim Financial Reporting”. Our responsibility is to express a conclusion on these condensed consolidated interim financial statements based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, “Review of Interim Financial Information Performed by the Independent Auditor of the Entity”. A review of condensed consolidated interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial statements are not prepared, in all material respects, in accordance with International Accounting Standard 34, “Interim Financial Reporting”.

1. GENERAL INFORMATION

Public Joint Stock Company Magnitogorsk Iron & Steel Works (the "Parent Company") is a public joint stock company as defined by the Civil Code of the Russian Federation. The Parent Company was established as a state owned enterprise in 1932. It was incorporated as a public joint stock company on 17 October 1992 as part of and in accordance with the Russian Federation privatization program.

The Parent Company, together with its subsidiaries (the "Group"), is a producer of ferrous metal products. The Group's products are sold in the Russian Federation and internationally. The subsidiaries of the Parent Company are mainly involved in the various sub-processes within the production cycle of ferrous metal products or in the distribution of those products. The Group is also engaged in coal mining and sale thereof.

The Parent Company's registered office is 93, Kirova street, Magnitogorsk, Chelyabinsk region, Russia, 455000.

As at 30 June 2019 the Parent Company's major shareholder was Mintha Holding Limited with a 84.3% ownership interest (31 December 2018: 84.3%).

The ultimate beneficiary of the Parent Company is Mr. Viktor F. Rashnikov, the Chairman of its Board of Directors.

The effective and nominal ownership holdings of the Group's principal subsidiaries at 30 June 2019 did not change from 31 December 2018.

2. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES

Basis of preparation

These unaudited condensed consolidated interim financial statements for the three and six months ended 30 June 2019 have been prepared in accordance with IAS 34 "Interim financial reporting" ("IAS 34"). The consolidated statement of financial position at 31 December 2018 has been derived from the consolidated statement of financial position included in the Group's consolidated financial statements at 31 December 2018. These unaudited condensed consolidated interim financial statements do not include all of the information and disclosure required in the annual consolidated financial statements and should be read in conjunction with the Group's annual consolidated financial statements for the year ended 31 December 2018, which have been prepared in accordance with International Financial Reporting Standards ("IFRS").

The same accounting policies and methods of computation have been followed in these unaudited condensed consolidated interim financial statements as were applied in the preparation of the Group's consolidated financial statements for the year ended 31 December 2018, except for changes made due to adoption of new Standards and Interpretations becoming effective from 1 January 2019 and for the estimation of income tax. Taxes on income in the interim periods are accrued using the tax rate that would be applicable to expected total annual profit or loss.

Adoption of new or revised standards and interpretations

The following new standards, amendments to standards and interpretations became effective for the Group from 1 January 2019:

- IFRIC 23 "Uncertainty over Income Tax Treatments" (Issued on 7 June 2017 and Effective for Annual Periods Beginning on or After 1 January 2019).
- Prepayment Features with Negative Compensation - Amendments to IFRS 9 (issued on 12 October 2017 and effective for annual periods beginning on or after 1 January 2019).
- Amendments to IAS 19 "Plan Amendment, Curtailment or Settlement" (issued on 7 February 2018 and effective for annual periods beginning on or after 1 January 2019).
- Long-term Interests in Associates and Joint Ventures - Amendments to IAS 28 (issued on 12 October 2017 and effective for annual periods beginning on or after 1 January 2019).
- Annual Improvements to IFRSs 2015-2017 cycle - amendments to IFRS 3, IFRS 11, IAS 12 and IAS 23 (issued on 12 December 2017 and effective for annual periods beginning on or after 1 January 2019).

Unless otherwise stated these standards, amendments to standards and interpretations did not have a material impact on these unaudited condensed consolidated interim financial statements.

The Group has elected to early adopt IFRS 16 "Leases" from 1 January 2018.

FOR THE THREE AND SIX MONTHS ENDED 30 JUNE 2019**

(In millions of U.S. Dollars, unless otherwise stated)

2. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (ПРОДОЛЖЕНИЕ)

New Accounting Pronouncements

A number of new standards, amendments to standards and interpretations are not yet effective as at 30 June 2019, and have not been early adopted by the Group:

- Sale or Contribution of Assets between an Investor and its Associate or Joint Venture - Amendments to IFRS 10 and IAS 28 (issued on 11 September 2014 and effective for annual periods beginning on or after a date to be determined by the IASB).
- IFRS 17 "Insurance Contracts" (issued on 18 May 2017 and effective for annual periods beginning on or after 1 January 2021).
- Amendments to the Conceptual Framework for Financial Reporting (issued on 29 March 2018 and effective for annual periods beginning on or after 1 January 2020).
- Definition of a business - Amendments to IFRS 3 (issued on 22 October 2018 and effective for acquisitions from the beginning of annual reporting period that starts on or after 1 January 2020).
- Definition of materiality - Amendments to IAS 1 and IAS 8 (issued on 31 October 2018 and effective for annual periods beginning on or after 1 January 2020).

Unless otherwise described above, the new standards, amendments to standards and interpretations are expected to have no impact or to have a non-material impact on the Group's unaudited condensed consolidated interim financial statements.

Estimates and assumptions

The preparation of unaudited condensed consolidated interim financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

In preparing these unaudited condensed consolidated interim financial statements, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the year ended 31 December 2018.

Functional and presentation currency

The individual financial statements of each Group entity are presented in the currency of the primary economic environment in which the entity operates (its functional currency).

The functional currency of the Group's entities except for MMK Metalurji and MMK Steel Trade AG is the Russian Rouble. The functional currency of MMK Metalurji and MMK Steel Trade AG is the US Dollar.

The presentation currency of the Group is the US dollar since the management considers the US dollar to be more appropriate for the understanding and comparability of consolidated financial statements. The results and financial position of each of the Group's subsidiaries were translated to the presentation currency as required by IAS 21, "The Effects of Changes in Foreign Exchange Rates".

At 30 June 2019, the official exchange rates were: US\$ 1 = RUB 63.0756 (31 December 2018: US\$ 1 = RUB 69.4706). Exchange rates for the six months ended 30 June 2019 were used as: US\$ 1 = RUB 65.3214 (the six months ended 30 June 2018: US\$ 1 = RUB 59.4022).

3. SEASONAL OPERATIONS

The Group's operations are not affected significantly by seasonal or cyclical factors during the financial year.

5. SEGMENT INFORMATION

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components. IFRS 8 "Operating segments" requires operating segments to be identified on the basis of internal reports about components of the Group that are regularly reviewed by the chief operating decision maker ("CODM") in order to allocate resources to the segments and to assess their performance, and for which discrete financial information is available.

The Group has identified the General Director of the Parent Company as its CODM.

Based on the current management structure and internal reporting the Group has identified the following segments:

- *Steel segment (Russia)*, which includes Parent Company and its subsidiaries involved in production of steel, wire and hardware products. All significant assets, production and management and administrative facilities of this segment are located in the city of Magnitogorsk (Russian Federation);
- *Steel segment (Turkey)*, which includes MMK Metalurji involved in production of steel. The two sites of this segment are located in Iskenderun and Istanbul (Turkey); and

5. SEGMENT INFORMATION (ПРОДОЛЖЕНИЕ)

- *Coal mining segment*, which includes OJSC Belon and LLC MMK Ugol involved in mining and refining of coal. All significant assets, production and management and administrative facilities of this segment are located in the city of Belovo (Russian Federation).

The profitability of the three operating segments is primarily measured by CODM based on Segment EBITDA. Segment EBITDA is determined as segment's operating profit adjusted to exclude depreciation and amortisation expense and loss on disposal of property, plant and equipment, and to include the share of result of associates, including the impairment of investments in associates. Since this term is not a standard measure in IFRS the Group's definition of EBITDA may differ from that of other companies.

Inter-segment pricing is determined on a consistent basis using market benchmarks.

The following table presents measures of segment results for the three and six months ended 30 June 2019 and 2018:

As at the 1 January 2019 the estimated total useful lives of certain items of machinery and equipment were revised. The net effect of the changes in the current period was a decrease in depreciation expense of USD 30 million. Assuming the assets are held at least until 31 December 2019, depreciation in the year ended 31 December 2019 in relation to these assets will be decreased by USD 60 million.

During the six months ended 30 June 2019 and 30 June 2018 the Group did not capitalize borrowing costs.

Capital commitments are disclosed in Note 15.

During the three and six months ended 30 June 2019 and 30 June 2018 the Group did not acquire or sell common shares of the Parent Company (treasury shares).

Dividends

On 31 May 2019, the Parent Company declared dividends of RUB 1.398 (USD 0.021) for the year ended 31 December 2018 and RUB 1.488 (USD 0.023) for the period ended 31 March 2019 per ordinary share representing total dividends of USD 240 million and USD 256 million, respectively. Dividends were paid in the amount of USD 240 million in June 2019 and in the amount of USD 261 million in July 2019 (Note 17). The difference with the declared amount is caused by the change in the exchange rates.

On 7 December 2018, the Parent Company declared dividends of RUB 2.114 (USD 0.032) per ordinary share representing total dividends of USD 354 million. In December 2018 and January 2019 dividends were paid out.

Eurobonds

On 13 June 2019, the Group issued 5-year USD 500 million eurobonds with an annual coupon rate of 4.375% payable semi-annually to finance its general corporate purposes. The bonds are repayable on 13 June 2024.

The Group issued bonds through a consolidated structured entity MMK International Capital DAC incorporated in the Ireland. This entity was consolidated as it was specifically set up for the purposes of the Group, and the Group has exposure to substantially all the risks and rewards through outstanding guarantees of the entity's obligations. The Group guarantees all obligations of this entity represented by the bonds issued.

14. RELATED PARTIES

Transactions and balances outstanding with related parties

Transactions between the Parent Company and its subsidiaries, which are related parties of the Parent Company, have been eliminated on consolidation and are not disclosed in this note.

The Group enters into transactions with related parties in the ordinary course of business for the purchase and sale of goods and services and in relation to the provision of financing agreements to and from the Group entities. Transactions with related parties are performed on terms that would not necessarily be available to unrelated parties.

Details of transactions with and balances between the Group and related parties at 30 June 2019 and 31 December 2018 and for the three and six months ended 30 June 2019 and 30 June 2018 are disclosed below.

Other related parties include entities under common control with the Group. The amounts outstanding are unsecured and will be settled in cash.

Remuneration of the Group's key management personnel

Key management personnel include key management of the Group and members of the Board of Directors and receive only short-term employment benefits. For the six months ended 30 June 2019 and 2018, total key management personnel compensation included in general and administrative expenses amounted to USD 5 million and USD 6 million, respectively, including social taxes.

15. COMMITMENTS AND CONTINGENCIES

Capital commitments

At 30 June 2019, the Group had purchase agreements of approximately USD 786 million to acquire property, plant and equipment (31 December 2018: USD 203 million). Penalties are payable or receivable under these agreements in certain circumstances and where supply terms are not adhered to. Management does not expect such conditions to result in a loss to the Group.

Contingencies

Taxation contingencies in the Russian Federation

Russian tax legislation, which was enacted or substantively enacted at the end of the reporting period is subject to varying interpretations when being applied to the transactions and activities of the Group. Consequently, tax positions taken by management and the formal documentation supporting the tax positions may be challenged by tax authorities. Russian tax administration is gradually strengthening, including the fact that there is a higher risk of review of tax transactions without a clear business purpose or with tax non-compliant counterparties. Fiscal periods remain open to review by the authorities in respect of taxes for three calendar years preceding the year when decisions about the review was made. Under certain circumstances reviews may cover longer periods.

The Russian transfer pricing (TP) legislation is generally aligned with the international TP principles developed by the Organisation for Economic Cooperation and Development (OECD), although it has specific features. The TP legislation provides for the possibility of additional tax assessment for controlled transactions (transactions between related parties and certain transactions between unrelated parties) if such transactions are not on an arm's length basis. The Management has implemented internal controls to comply with current TP legislation.

Tax liabilities arising from controlled transactions are determined based on their actual transaction prices. It is possible, with the evolution of the interpretation of TP rules, that such prices could be challenged. The impact of any such challenge cannot be reliably estimated; however, it may be significant to the financial position and/or the Group's operations.

**NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS
FOR THE THREE AND SIX MONTHS ENDED 30 JUNE 2019**

(In millions of U.S. Dollars, unless otherwise stated)

15. COMMITMENTS AND CONTINGENCIES (ПРОДОЛЖЕНИЕ)

The Group includes companies incorporated outside of Russia. The tax liabilities of the Group are determined on the assumption that these companies are not subject to Russian profits tax, because they do not have a permanent establishment in Russia. This interpretation of relevant legislation may be challenged but the impact of any such challenge cannot be reliably estimated currently; however, it may be significant to the financial position and/or the overall operations of the Group. In 2014, the Controlled Foreign Company (CFC) legislation introduced Russian taxation of profits of foreign companies and non-corporate structures (including trusts) controlled by Russian tax residents (controlling parties). Starting from 2015, CFC income is subject to a 20% tax rate.

As Russian tax legislation does not provide definitive guidance in certain areas, the Group adopts, from time to time, interpretations of such uncertain areas that reduce the overall tax rate of the Group. While management currently estimates that the tax positions and interpretations that it has taken can probably be sustained, there is a possible risk that an outflow of resources will be required should such tax positions and interpretations be challenged by the tax authorities. The impact of any such challenge cannot be reliably estimated; however, it may be significant to the financial position and/or the overall operations of the Group.

Russian business environment

The Russian Federation displays certain characteristics of an emerging market. Its economy is particularly sensitive to oil and gas prices. The legal, tax and regulatory frameworks continue to develop and are subject to frequent changes and varying interpretations. The Russian economy continues to be negatively impacted by ongoing political tension in the region and international sanctions against certain Russian companies and individuals. The operating environment has a significant impact on the Group's operations and financial position. Management is taking necessary measures to ensure sustainability of the Group's operations. However, the future effects of the current economic situation are difficult to predict and management's current expectations and estimates could differ from actual results.

16. FAIR VALUE OF FINANCIAL INSTRUMENTS

The estimated fair values of certain financial instruments have been determined using available market information or other valuation methodologies that require considerable judgment in interpreting market data and developing estimates. Accordingly, the estimates applied are not necessarily indicative of the amounts that the Group could realise in a current market exchange. The use of different assumptions and estimation methodologies may have a material impact on the estimated fair values.

Where it was available, management of the Group determined fair value of unlisted shares using a valuation technique that was supported by publicly available market information.

The carrying amounts of financial instruments such as cash (Level 1) and cash equivalents (Level 2), bank deposits, trade and other receivables, lease obligations, short-term and floating rate long-term borrowings (except for listed bonds), trade and other payables are reasonable approximation of their fair values as at 30 June 2019 and 31 December 2018 (Level 3 of fair value hierarchy). Fair value of the financial assets at amortized cost is valued at the net present value of estimated future cash flows. The Group also considers liquidity, credit and market risk factors, and adjusts the valuation model as deemed necessary.

The fair value of floating rate instruments is normally approximation of their carrying amount. The estimated fair value of fixed interest rate instruments is based on estimated future cash flows expected to be received discounted at current interest rates for new instruments with similar credit risks and remaining maturities. Discount rates used depend on the credit risk of the counterparty.

The following table presents the fair value of financial instruments carried at FVTPL at the end of reporting period across the three levels of the fair value hierarchy defined in IFRS 13 Fair Value Measurement, with the fair value of each financial instrument categorised in its entirety based on the lowest level of input that is significant to that fair value management. The levels are defined as follows:

Level 1 (highest level): fair values measured using quoted prices (unadjusted) in active markets for identical financial instruments.

Level 2: fair values measured using quoted prices in active markets for similar financial instruments, or using valuation techniques in which all significant inputs are directly or indirectly based on observable market data.

Level 3 (lowest level): fair values measured using valuation techniques in which any significant input is not based on observable market data.

17. EVENTS AFTER THE DATE OF UNAUDITED CONDENSED CONSOLIDATED STATEMENT OF FINANCIAL POSITION

In July 2019, dividends were paid in the amount of USD 261 million. The difference with the declared amount is caused by the change in the exchange rates.

18. APPROVAL OF THE UNAUDITED CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

The unaudited condensed consolidated interim financial statements for the three and six months ended 30 June 2019 were approved by the Group's management and authorized for issue on 31 July 2019.
