Auditors' Report on Review of Consolidated Interim Condensed Financial Information

To the Shareholders and Board of Directors

OJSC "PhosAgro"

Introduction

We have reviewed the accompanying consolidated interim condensed statement of financial position of OJSC "PhosAgro" (the "Company") and its subsidiaries (the "Group") as at 30 September 2014, and the related consolidated interim condensed statements of profit or loss and other comprehensive income for the three- and nine-month periods then ended, and the related consolidated interim condensed statements of changes in equity and cash flows for the nine-month period then ended, and notes to the consolidated interim condensed financial information (the "consolidated interim condensed financial information"). Management is responsible for the preparation and presentation of this consolidated interim condensed financial information in accordance with International Financial Reporting Standard IAS 34 *Interim Financial Reporting*. Our responsibility is to express a conclusion on this consolidated interim condensed financial information based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410 *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*. A review of consolidated interim condensed financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the consolidated interim condensed financial information as at 30 September 2014, and for the three- and nine-month periods then ended is not prepared, in all material respects, in accordance with International Financial Reporting Standard IAS 34 *Interim Financial Reporting*.

1 BACKGROUND

(a) Organisation and operations

OJSC "PhosAgro" (the "Company" or the "Parent") and its subsidiaries (together referred to as the "Group") comprise Russian legal entities. The Company was registered in October 2001. The Company's registered office is Leninsky prospekt 55/1 building 1, Moscow, Russian Federation.

The Group's principal activity is production of apatite concentrate and mineral fertilisers at plants located in the cities of Kirovsk (Murmansk region), Cherepovets (Vologda region), Balakovo (Saratov region) and Volkhov (Leningrad region), and their distribution across the Russian Federation and abroad.

(b) Russian business environment

The Group's operations are primarily located in the Russian Federation. Consequently, the Group is exposed to the economic and financial conditions of the Russian Federation which display characteristics of an emerging market. The legal, tax and regulatory frameworks continue development, but are subject to varying interpretations and frequent changes which together with other legal and fiscal impediments contribute to the challenges faced by entities operating in the Russian Federation. The consolidated interim condensed financial statements reflect management's assessment of the impact of the Russian business environment on the operations and the financial position of the Group. The future business environment may differ from management's assessment.

2 BASIS OF PREPARATION

(a) Statement of compliance

The International Financial Reporting Standards ("IFRS") consolidated interim condensed financial statements ("consolidated interim condensed financial statements") of the Group have been prepared in accordance with IAS 34 *Interim Financial Reporting*.

These consolidated interim condensed financial statements do not contain all the information required for presentation in a complete set of IFRS financial statements and therefore should be read in conjunction with PhosAgro's consolidated annual financial statements for the year ended 31 December 2013.

Except as disclosed in note 2(c), the accounting policies and judgements applied by the Group are consistent with those disclosed in the audited consolidated financial statements for the year ended 31 December 2013.

(b) Functional and presentation currencies

The national currency of the Russian Federation is the Russian Rouble ("RUB"), which is the functional currency of the Parent and its subsidiaries, except for foreign trading subsidiaries, where the functional currency is USD. All financial information presented in RUB has been rounded to the nearest million, except per share amounts.

These consolidated interim condensed financial statements are presented in RUB.

The translation from USD into RUB, where applicable, was performed as follows:

- Assets and liabilities as at 30 September 2014 were translated at the closing exchange rate of RUB 39.3866 for USD 1 (31 December 2013: RUB 32.7292 for USD 1);
- Profit and loss items were translated at the average exchange rate for the nine months ended 30 September 2014 of RUB 35.3878 for USD 1 (nine months ended 30 September 2013: RUB 31.6170 for USD 1).
- Equity items, which were recognised at the date of adoption of IFRS, 1 January 2005, were translated at the exchange rate of RUB 27.7487 for USD 1. Equity items arising during the year are recognised at the exchange rate ruling at the date of transaction.
- The resulting foreign exchange difference is recognised in other comprehensive income.

(c) Adoption of new and revised standards and interpretations

The following new standards and amendments became effective for the Group from 1 January 2014:

- Amended IAS 32 *Financial Instruments: Presentation* provides clarifications on the application of the offsetting rules of financial instruments. Amended IAS 32 did not have a significant effect on the Group's consolidated interim condensed financial statements.
- Amended IAS 36 *Impairment of assets* has been issued to reverse the unintended requirement in IFRS 13 *Fair Value Measurement* to disclose the recoverable amount of every cash-generating unit to which significant goodwill or indefinite-lived intangible assets have been allocated. Under the amendments, the disclosure of information about the recoverable amount of impaired assets will be required only when the recoverable amount is based on fair value less costs of disposal. The amendments to be applied retrospectively. Amended IAS 36 did not have a significant effect on the Group's consolidated interim condensed financial statements.
- Amended IFRS 10 *Consolidated Financial Statements* provides investment entities an exemption from the consolidation of particular subsidiaries and instead requires that an investment entity measure the investment in each eligible subsidiary at fair value through profit or loss in accordance with IFRS 9 *Financial Instruments* or IAS 39 *Financial Instruments: Recognition and Measurement*. Amended IFRS 10 did not have a significant effect on the Group's consolidated interim condensed financial statements.
- Amended IFRS 12 *Disclosure of Interests in Other Entities* requires additional disclosure about why the entity is considered an investment entity, details of the entity's unconsolidated subsidiaries, and the nature of relationship and certain transactions between the investment entity and its subsidiaries. Amended IFRS 12 did not have a significant effect on the Group's consolidated interim condensed financial statements.
- IFRIC 21 *Levies* provides guidance on determining the obligation event that gives rise to a liability in connection with a levy imposed by a government, both for levies that are accounted for in accordance with IAS 37 *Provisions, Contingent Liabilities and Contingent Assets* and those where the timing and amount of the levy is certain. IFRIC 21 did not have a significant effect on the Group's consolidated interim condensed financial statements.

The adoption of the amendments to existing standards did not have significant impact on these consolidated interim condensed financial statements.

A number of new standards, amendments to standards and interpretations are not yet effective at 30 September 2014, and have not been early adopted.

The Group does not expect the amendments to have significant impact on the consolidated interim condensed financial statements.

3 PRIOR YEAR ADJUSTMENTS AND RECLASSIFICATIONS

During the current period the Group made a decision to make certain reclassifications of expenses for the three and nine months ended 30 September 2013 on materials and services, depreciation, amortisation, salaries and social contributions between cost of sales, administrative expenses, and restructuring costs in order to align them with the current period's presentation:

4 SEGMENT INFORMATION

The Group has two reportable segments, as described below, which are the Group's strategic business units. The strategic business units offer different products, and are managed separately because they require different technology and marketing strategies. The following summary describes the operations in each of the Group's reportable segments:

- *Phosphate-based products segment* includes mainly production and distribution of ammophos, diammoniumphosphate, sodium tripoly phosphate and other phosphate based and complex (NPK) fertilisers on the factories located in Cherepovets, Balakovo and Volkhov, and production and distribution of apatite concentrate extracted from the apatite-nepheline ore, which is mined and processed in Kirovsk;
- *Nitrogen-based products segment* includes mainly production and distribution of ammonia, ammonium nitrate and urea on the factory located in Cherepovets.

Certain assets, revenue and expenses are not allocated to any particular segment and are, therefore, included in the "other operations" column. None of these operations meet any of the quantitative thresholds for determining reportable segments.

Information regarding the results of each reportable segment is included below. Performance is measured based on gross profit, as included in internal management reports that are reviewed by the Group's CEO.

The Group management believes that all necessary ecological payments are accrued and paid timely and does not agree with the amount of additional claim. The management believes that it is probable that the Group's position will be sustained by the court. In September 2014, the Arbitration Court rejected the claim of Rosprirodnadzor. 26 SEASONALITY

The Group is subject to certain seasonal fluctuations in fertiliser demand due to the timing of fertiliser application and, as a result, fertiliser purchases by farmers. However, the effect of seasonality on the Group's revenue is partially offset by the fact that the Group sells its fertilisers globally and fertiliser application and purchases vary by region. In particular, purchases of fertilisers by farmers in Russia generally peak in the third quarter. This normally results in the Group having somewhat higher revenue in the third quarter as compared to the other quarters. However, fertiliser demand from other regions tends to peak in other periods of the year (for example, fertiliser demand from Europe and North America generally peaks in the first and third quarters, demand in South America generally peaks in the second and third quarters).

The Group's costs are generally stable throughout the year with the exception of a slight increase during May-June as a result of maintenance activities undertaken at the Group's production facilities.
