OJSC "VolgaTelecom" shares are allowed for circulation by two organizers of trading at securities market:

- Non-commercial partnership "Stock exchange "Russian trading system" (NCP Stock exchange "RTS");
- Closed Joint Stock Company "Moscow Interbank Currency Exchange" (CJSC "MICEX").

Stock exchange "RTS" is selected for calculation of weighted average price of a share; the issuer's shares have been circulated there since December 1996.

Procedure of determining market capitalization:

➤ Market capitalization on the date of each fiscal year accomplishment is calculated as the product of shares quantity of the corresponding category (type) by weighted average price of a share of this category (type). Weighted average price of shares is calculated by 10 largest

transactions made via the organizer of trading at the securities market in the last month of each accomplished fiscal year.

In case, if during the last month of the accomplished fiscal year there were less than 10 transactions made at the securities market, then the weighted average price of a share is calculated by 10 largest transactions made via the organizer of trading at the securities market during 3 last months of each accomplished fiscal year for which the information on OJSC “VolgaTelecom” market capitalization is indicated.

In case, if during the last 3 months of each accomplished fiscal year via the organizer of trading at securities market there were made less than 10 transactions, then OJSC “VolgaTelecom” market capitalization is calculated as the product of the shares quantity of corresponding category (type) by weighted average price of a share of this category (type) calculated as per the procedure of calculation of weighted average price of a valuable paper at RTS Stock exchange.

The calculation of weighted average price of a valuable paper, established in the course of trading at Stock exchange RTS, is made by using the price information on transactions concluded on the basis of addressless applications during the trading session. The calculation is made on the stock’s business days and is being performed every hour; the first calculation is made in an hour after the trading session opening. The official value is the value of weighted average price calculated at the time of the trading session closing. The calculation of weighted average price of valuable papers, for which the trading is suspended, is not made.

Weighted average price of the i-th valuable paper is calculated by the following formula:

$$AP_i = \frac{\sum_{k=1}^n (P_{ik} \times Q_{ik})}{\sum_{k=1}^n Q_{ik}}$$

Where n – the number of transactions selected for calculation, P_{ik} – the price of the k-th transaction under the i-th valuable paper, Q_{ik} – the volume of the k-th transaction under the i-th valuable paper.

2.3. The issuer’s liabilities

2.3.1. Accounts payable

2.3.3. The issuer’s liabilities from the guarantee provided to third parties

The information for the report period under the issuer’s liabilities from the guarantee provided to third parties will be provided in the report for quarter I of year 2004.

2.3.4. The issuer’s other liabilities

The information for the report period under the issuer’s other liabilities will be provided in the report for quarter I of year 2004.

2.4. The purposes of the emission and the directions of usage of resources obtained from the issuing securities placement

In the report quarter there are no specified directions of resources usage.

2.5. Risks related to the acquisition of being placed (placed) issuing securities

Industry risks,
Country and regional risks,
Financial risks,
Legal risks,
Risks related to the issuer's activity.

2.5.1. Industry risks

- 1) The strengthening of positions of national operators at the markets of Povolzhje, including at the market of cellular communication. Possessing wider coverage areas, access to investment resources and experience in network developing, national players represent serious threat to Inter-Regional Companies.
- 2) Combining of efforts of small regional providers to resist traditional operators. They may jointly lobby favorable decisions of the Ministry of Antimonopoly Policy and local authorities, and also invest in the development of their own infrastructure.
- 3) Danger from technologies reducing the value of possessing "the last mile": radio access, "call back" services with switched access to the Internet.
- 4) Threat from technologies based on IP-protocol (especially, for the most vulnerable services of long-haul communication). Besides voice transmission via data transfer channels, the replacement of a part of long-haul calls with e-mail messages exchange is observed.
- 5) The Ministry of Antimonopoly Policy requirement on allotment of non-regulated services into separate companies may result in increase of network maintenance expenses.

2.5.2. Country and regional risks

- 1) Threat of large interference of regulatory bodies into Inter-Regional Companies activity. Objectively, Inter-Regional Companies are becoming very powerful at the market. In addition, the number of management subjects is reduced for the regulatory body. Hence, the consolidated company would attract more attention to its activity.
- 2) Threat of toughening the positions of regional authorities as regards the allocation of funds. Under the conditions, when all most important decisions will be taken in Nizhny Novgorod, governors, presidents may decrease the allocation of funds to compensate for the benefits, which will result in the increase of the accounts receivable of Inter-Regional Companies. In addition, the regional authorities may reduce the financing of telephone installation programs of their regions.

2.5.3. Financial risks

As of 01.01.2004 the share of contracts, concluded by the issuer with suppliers and contractors in foreign currency is insignificant. So, it may be stated that the organization's exposure to risks, related to the change of foreign currency exchange rate, is minimum.

2.5.4. Legal risks

The below listed aspects of Russia's existing legal system generate uncertainty while taking legal decisions and decisions in business area by the issuer's chief executive officers:

- Contradictions between the laws, decrees of the President of Russian Federation, the Government acts and directions of ministries, as well as between local, regional and federal legislation and statutory acts;
- Passing by the Government, bodies and departments of statutory acts without clear constitutional or legislative basis;
- Delays in passing or lack of by-laws, ensuring the execution of this or that legislation, causing significant flaws in statutory-legal base;
- Insufficient judicial and administrative practice of interpretation of relevant norms and limited value of judicial decisions as precedents;
- The lack of sufficient experience of interpretation and application of market legislation and liability to economic and political influence of judicial authority in Russia;
- Insufficiently efficient warranties of getting protection in Russian court and of enforced execution of judicial decisions.

Statutory-legal base in relation to property and securities is permanently in the course of development, which is why there is a risk of limitation of issuer's capability to attract the investments in the future, due to these the risks factors are:

- Imperfection of statutory base in Russia leads to contradiction of a number of laws and by-laws, which for the issuer may result in higher expenses and reduce the capability of managing its business;
- Developing and being frequently changed Russian taxation system generates considerable uncertainty and risks, which complicates tax planning and decision making by the issuer;
- Current, limiting currency regulation, which may prevent the issuer from making ordinary business operations and attracting foreign investments in the future;
- Changes of the rules of customs control and duties, of requirements to licensing the issuer's major activity, of judicial practice on the issuers related to the issuer's activity (including the licensing issues), may also negatively affect the results of the issuer's activity, and also on the results of current judicial processes in which the issuer is involved.

2.5.5. Risks related to the issuer's activity

The risks, related to current legal processes in which the issuer is participating, and also to the issuer's potential liability under the debts of third parties, are insignificant.

3.1.3. Data on the issuer's creation and development

In 1993 as a result of privatization of state enterprise of communication and informatics "Rossviyazinform" there was registered joint stock company of open type (JSCOT) "Sviyazinform" of Nizhny Novgorod oblast, which in 1996 was transformed into Open Joint Stock Company (OJSC) "Nizhegorodsviyazinform". Thus, the issuer has been operating almost for 10 years since the date of its state registration (15.12.1993) and has been established as per the Company's Charter for the unlimited period of activity. General objective of the company's establishment was to increase the efficiency of the state economic system and to transit from planned economy to market relations. Belonging to the area of service production determines the major objective of the company, which objective is to obtain additional profit via tracking and reacting to the market demands with further satisfaction of the demand for services.

In 1993 the company got independence in the management of its own production and financial resources. Following the obtaining of economic independence OJSC "Nizhegorodsviyazinform" started active modernization of communication networks by transforming the existing capacities and constructing the new ones only on the basis of digital data transmit systems. Annual increase of the network subscriber capacity amounted to 70 thousand of lines per year.

Due to active implementation of the latest communication services on the basis of high technological level equipment OJSC "Nizhegorodsviyazinform" since 1996 has started to provide Internet access services. In addition, OJSC "Nizhegorodsviyazinform" has been gradually expanding the list of high-tech services – ISDN, phone cards system, as an element of intelligent network, IP telephony, xDSL-based digital access, voice mail, etc.

In 1994 OJSC "Nizhegorodsviyazinform" shares entered Russia's market of securities. In 1997 the company issued ADRs of Level I, they are traded at Berlin and Frankfurt currency stock exchanges.

Up to the second half of 2002 OJSC "Nizhegorodsviyazinform" had been the leading operator at telecommunications market of the city of Nizhny Novgorod and Nizhny Novgorod oblast. Being a natural monopolist in the area of providing the services of local, long distance and international telephone communication, the company was the 4-th by the size of telephone network among Russia's regional operators.

In 2002 on the basis of OJSC "Nizhegorodsviyazinform", by affiliating 10 enterprises of communication of Povolzhie, there was established Open Joint Stock Company "VolgaTelecom" – communication enterprise of Povolzhie.

The resolution on reorganization by way of incorporating to OJSC "VolgaTelecom" was adopted by overwhelming majority of votes at extraordinary shareholders meetings of incorporated companies in autumn of 2001.

In July of 2002 the board of directors of OJSC "VolgaTelecom" adopted the resolution on increasing the company's authorized capital. Additional issue of shares was placed within the limits of declared shares by converting the shares of incorporated communication operators of Povolzhie into them.

As of November 30, 2002 10 incorporated joint stock companies were excluded from the Single state register of legal entities; their property, assets, personnel were transferred to corresponding regional branches of OJSC "VolgaTelecom". The shares and bonds of these companies were converted into OJSC "VolgaTelecom" shares and bonds.

The incorporated company covers by its network the territory of 665 thousand square meters and provides communication services to over 21 million people.

OJSC “VolgaTelecom” has the licenses to provide the services of local, long distance and international telephone communication, documentary communication, radio broadcasting, etc. in eleven regions of Povolzhskiy federal district.

The company is a large Internet provider, directly or via affiliated companies it provides the services of paging and mobile communication of various standards.

3.2. The issuer's major economic activity

3.2.1. The issuer's industry affiliation

Codes of major industry trends of activity as per General Classifier of Foreign Economic Activity (GCFEA)

64.20 Activity in communication area

- 64.20.11 Activity in telephone communication area
- 64.20.12 Activity in documentary communication area
- 64.20.21 Activity in transmission (broadcasting) and distribution of TV programs area
- 64.20.22 Activity in transmission (broadcasting) and distribution of radio programs area
- 64.20.23 Other activity in communication area

3.2.2. The issuer's major economic activity

In this report period the information is not provided.

3.2.3. Major types of products (works, services)

In this report period the information is not provided.

3.2.4. The issuer's suppliers which share is 10 and over percent of all supplies of commodities and materials with indication of their share in the total volume of supplies

In this report period the information is not provided.

3.2.5. The markets of sales of the issuer's products (works, services)

The major markets of OJSC "VolgaTelecom" are:

1. The market of local and intrazonal telephone communication.
2. The market of long distance and international telephone communication.
3. The market of new communication services (Internet and data transfer, ISDN, xDSL, IP-telephony, intelligent network, other services of data transfer).
4. The market of wireless and cellular communication.

5. Other services (wire radio broadcasting, documentary communication, radio broadcasting, TV, satellite communication).

Basic customer groups of communication services, provided by OJSC “VolgaTelecom”, are:

- Population
- Business (large, medium and small)
- Budgetary organizations

Population

Currently, OJSC “VolgaTelecom” occupies dominant position in this segment due to the leadership in the services of traditional telephony. However, vigorous growth of mobile communication will result in the decrease of total share of OJSC “VolgaTelecom” in this segment. In addition, demonopolization of long haul communication and development of alternative technologies will result in the loss of the market portion in this type of service.

Large business

At present OJSC “VolgaTelecom” positions are most vulnerable in this segment of customers: - the market share is 42%, as alternative operators in the first place are targeting large companies. In addition, corporate operators are developing, first of all, on the basis of large companies. OJSC “VolgaTelecom” would be able to stabilize its positions in this segment and then to increase the market share by using new technologies, e.g. IP VPN, and in parallel squeezing out corporate networks.

The growth of market share in this segment is possible in case of private networks changeover under OJSC “VolgaTelecom” management. OJSC “VolgaTelecom” is planning to calculate business-plans and offer large companies to buy out their networks with the changeover for servicing at OJSC “VolgaTelecom” both the company itself and inhabitants of adjacent dwellings which are now being serviced by private operators.

Medium and small business

Currently, OJSC “VolgaTelecom” market share in this segment is at the level of 60%. Basing on the polls, medium and small businesses are mostly dissatisfied with their operator of traditional telephony. 23% want to change local communication operator and 28% want to use the services of other operator of long haul communication.

The main reasons of weakness of OJSC “VolgaTelecom” positions in this segment are of organizational nature and hence may be removed. Marketing strategy of the company assumes that OJSC “VolgaTelecom” will reorganize its work and achieve the strengthening of its positions in the segment of medium and small businesses.

In these segments the most important advantage of OJSC “VolgaTelecom” is that the company has developed infrastructure and has quite free access to customers. The access to customers is provided by the availability of OJSC “VolgaTelecom” lines in these companies’ offices, and also by the access to billing information about small and medium companies.

Budgetary organizations

Despite of sufficient lag in the level of service as compared with the best alternative operators, OJSC “VolgaTelecom” has considerable portion of market in this segment. This fact occurs on

the background of low attractiveness of this segment because of the problems with collecting payments and low tariffs.

The most important advantage of OJSC “VolgaTelecom” at the market of budgetary organizations is the availability of developed infrastructure in regions and also the status of state operator. Dominance in this segment will remain. OJSC “VolgaTelecom” will monitor the most interesting projects related to budget financing, and in the first place with “Electronic Russia” program.

3.2.6. Practice related to floating capital and stock

OJSC “VolgaTelecom” policy related to floating capital is directed to minimization of current accounts payable, which reduces the possibility of loss of the company’s liquidity. To realize this strategy the company attracts long term sources of financing of activity, such as long-term credits of banks, funded loans, credit against goods, leasing. In 2003 OJSC “VolgaTelecom” issued the bonds for the amount of 1 billion rubles. When defining this strategy the issuer realizes some compromise between the loss of liquidity and the efficiency of operation, when selecting the sources of financing the issuer takes into consideration the term of repaying the liabilities and the costs for using borrowed funds.

3.2.7. Raw materials

In the course of communication services rendering raw materials are not used.

3.2.8. Major competitors

Our company encounters strong competition in three key regions – Nizhny Novgorod, Samara and Saratov oblasts. These oblasts are the most attractive for competitors and exactly at these territories OJSC “VolgaTelecom” should defend its market positions first of all. Along with a large number of regional alternative operators at the markets of these oblasts there are also such large companies as “Golden Telecom, Inc.” (“Combellga” and “Comincom” joined it), CJSC “Company TransTeleCom”, LLC “Global One”. The main threat is from these well known companies, which conduct aggressive marketing policy, develop most modern telecommunication technologies, use flexible tariff policy (with individual approach to every customer), they have a large number of sales staff, and clear incentive system of employees motivation.

Nizhny Novgorod oblast

16 alternative operators, affiliated at the local level, provide the services of fixed telephone communication. The largest are LLC “Agency of business communication”, LLC “Sviyazist”, LLC “NN Rossviyazinform”, CJSC “Global One”, CJSC Telecom Company “Korona”, CJSC “Transsviyaz”, CJSC “Povolzhie Service-Center”, State Enterprise “Volgarechsviyaz”, LLC “Telcom”, State Unitary Enterprise “Gorky railroad”.

Long distance and international communication services, using their own channels, are provided by:

- LLC “Agency of business communication”;
- CJSC “Global One”.

The following operators are competitors of OJSC “VolgaTelecom” Nizhny Novgorod branch in IP-telephony segment: “Energoinform”, “Fonecom”, “New telecom”, “Stelt telecom”, “Volgarechsviyaz”.

Internet providers. OJSC “VolgaTelecom” major competitors are LLC “Agency of business communication”, CJSC “Nizhegorodskie informational networks”, CJSC “Nizhegorodteleservice”, CJSC “SANDY-SERVICE”, LLC “Nizhegorodskiyi teleservice”.

Samara oblast.

At the market of communication services in Samara oblast there are over 120 operators, providing wire telephone communication services; 15 operators, providing long distance and international telephone communication services; 5 operators, providing cellular communication services; 20 operators, providing Internet services.

Saratov oblast.

In Saratov oblast 116 operators are registered, they have 165 licenses for communication services provision. Out of them 69 have the licenses to provide the services of local (city's and rural) telephone communication; 39 – data transfer and telematic services; 6 – radiotelephone (cellular) communication; 3 – mobile radiotelephone (trunking) communication; 7 – personal radio call (paging communication); 7 – communication channels leasing; 8 – cable TV services.

Most of the private operators are insignificant in size, they are little interested in developing the operator's activity (e.g. private operators of communication) and due to this they are not strategic competitors.

The major competitive advantages of alternative operators.

In local communication segment:

1. Lack of social obligations.
2. Construction of their networks on the basis of digital switches.
3. Individual approach to every customer.
4. Higher quality of customer servicing.

In long distance and international communication segment:

1. Prompt reaction to market situation change.
2. Flexibility in relations with customers.

In Internet services segment:

1. Higher servicing quality.
2. Individual tariffs for every subscriber.
3. Individual approach to servicing every subscriber.
4. Prompt reaction to market situation change.
5. Lack of social obligations.

Competitive advantages of OJSC “VolgaTelecom”:

- Availability of developed infrastructure;
- Stable financial status, allowing for investing in most profitable segments of market and most perspective trends of business;
- Ability to form packages of integrated services.

Table. OJSC “VolgaTelecom” share at regional markets of communication services (estimated as of 01.01.04).

3.2.9. Data on the availability of licenses with the issuer

See annex (page 305)

Forecast as regards the probability of licenses extension.

1. The licenses for communication services.

Upon the validity term expiry the licenses may be extended subject to compliance with all items of the license terms and conditions, which is confirmed by the verification report of the department of state supervision over communication and informatization (DSSCI), by the extension of the validity term of radio frequencies permission (if used) and by filing the appropriate application to the licensor's address – Russian Federation Ministry for communication and informatization. Due to the fact that the Law "On communication" in a new wording became effective in order to get the license for providing communication services for TV broadcasting, radio broadcasting and broadcasting of additional information the applicant of the license must submit notarized copy of the license for broadcasting (MTVRB).

2. (for item 29 of the Table) Licenses for broadcasting are extended on the basis of the verification report of DSSCI confirming the compliance with the license terms and conditions and if available authorization documents on the possibility of radio frequency resource usage. The licenses are extended by Russian Federation Ministry for the press, TV-radio broadcasting and mass communication tools.

3. Licenses for the activity, listed in items 17 – 28, are extended subject to timely filing of documents package to the licensor's address, as established by the law.

The issuer obligations as regards the creation of subscriber’s base are defined by the appropriate item of the appendix to the license, where the number of subscribers by the end of the license validity term is indicated. These obligations are absent under the licenses for providing the services of on-air broadcasting of TV and radio broadcasting programs. However, the figure indicated in the license is a foreseeable value, and less than 25% non-performance of this indicator by the operator does not result in the license cancellation.

(For frequencies, see annex on page 281. Permissions for using radio electronic equipment by OJSC “VolgaTelecom”).

b) Communication networks

In local telephone networks OJSC “VolgaTelecom” operates 5 931 telephone exchanges, their total installed capacity is 4 237 874 numbers (including at city’s telephone networks – 3 532 619 numbers, at rural telephone networks – 705 255 numbers). Out of them in operation are 3 884 705 numbers (including at city’s telephone networks – 3 277 183 numbers, at rural telephone networks – 607 522 numbers).

7, 9% of the network telephone exchanges are electronic, their installed capacity is 40, 7 % of the total installed capacity of the network (including at city’s telephone network - 46, 9%, at rural telephone network - 10, 0 %).

The equipment of automatic long distance telephone communication includes 13 automatic long distance exchanges and the equipment of automatic zonal telephone communication with the total installed capacity of 61 331 channels. Installed capacity of electronic automatic long distance exchanges is 43 915 channels, of quasi-electronic - 3024 channels, of coordinate -1000 channels, of automatic zonal telephone communication equipment - 13 391 channels.

Total operated capacity of automatic long distance exchanges and the equipment of automatic zonal telephone communication is 48 175 channels, including the capacity of electronic exchanges - 35 330 channels, of quasi-electronic - 2045 channels, of coordinate - 487 channels, of automatic zonal telephone communication equipment - 10313 channels.

The number of main telephone sets at OJSC “VolgaTelecom” network is 3 837 563 units (including, in city’s telephone network -3 218 837 sets, in rural telephone network - 618 726 sets), out of them 3 285 688 sets are residential ones, (including, in city’s telephone network -2 766 065 sets, in rural telephone network - 519 623 sets).

For 2003 the traffic of outgoing chargeable long distance and international calls from OJSC “VolgaTelecom” network users amounted to 1 995 716 thousand minutes, including international - 75 454 thousand minutes.

3.4. The plans of the issuer’s future activity

Multi-service data transfer network should become a serious competitive advantage of the company in the priority segment of large corporate customers; the first phase of its construction in Nizhny Novgorod oblast is completed. The construction of inter-regional multi-service network of OJSC “VolgaTelecom” would allow to create virtual networks of large corporate customers in Povolzhie, and also to solve corporate tasks for information exchange between OJSC “VolgaTelecom” branches.

The other important trend of the company’s activity is the promotion of intelligent network services. An intelligent network is communication network based on computer technologies, in this network the functions related to service provision are separated from the switching system. The major task of an intelligent network is to provide to the customer the capability of getting any service an operator is capable to invent, and to an operator – the capability to deliver this service, to calculate it and define the tariff. An intelligent network allows not just to connect two subscribers, but to create personal scenarios of telephone calls processing. For example, it would allow for organizing the calling as per the list, to install automatic informer in the office, etc. The demand for these services is quickly growing, as Russia’s advertising market is developing and the number of communicative channels is increasing.

The construction of the intelligent network will serve to the development of small and medium business, to the development of informational services and is the initial phase of the pilot project of constructing Federal intelligent communication network, organized by OJSC “Sviayzinvest” with the support of the Ministry for communication. In future, it is planned to construct intelligent networks in other branches of OJSC “VolgaTelecom”.

The company’s management plans include organization of Call-centers or Calls Processing Centers. Call-centers are designed for servicing a large number of telephone calls. They are used for organizing “hot-lines”, direct-marketing, for conducting social polls, etc. In Russia there are about 150 active call-centers, the largest ones are with Golden Telecom – about 200 work stations, with “MTU-Inform” - 100, and with “Kometa”, “PTT-Teleport” and “Astra-page” about 70 work stations each. The largest in Russia call-centers are with cellular communication operators: “Mobile TeleSystems”, “VympelKom” and “Megaphone”. But they are providing services only to the operators’ subscribers, and do not provide commercial services to third party customers. OJSC “VolgaTelecom” is planning to open a call-center in Nizhny Novgorod (and then in other regional

centers of Povolzhie) both for providing reference information to its customers and for servicing commercial organizations interested in call-center services.

One of the company's priorities is radical change of relations with customers, and in the first place with corporate and VIP customers of business sector, and also with the population with high level of income. For these segments the company is developing end-to-end proposals for most profitable and perspective services, such as mobile communication, wideband access to Internet, data transfer corporate networks, intelligent services, cable TV.

Signing of contracts with large companies on complex mutually beneficial cooperation on the basis of exclusive approach principles is one of the items of strategy to increase OJSC "VolgaTelecom" competitiveness, to strengthen the positions in corporate segment of telecommunications market. End-to-end servicing and personal approach will become major trends of further improvement of quality of work with the company's corporate customers.

4.5. Analysis of the development trends in the issuer's major activity area

Describing major trends of the company's development one should proceed from the objectives and mission of the company at the market. Affiliation to the sphere of services production defines the major objective of the company, which is to get additional profit via monitoring and reacting to the market requirements with further meeting the demand for services.

The understanding of this task predetermines the tendencies and trends of development of the company:

The first and major task of the company is to keep and to increase the market share of local telephone communication services, total share of income from this market segment currently makes up over 50% of the total company's income. Annual increase of share of incomes from this segment

is clearly seen, this is to a considerable extent promoted by annual industry development as well as by flexible tariff policy.

Total gain of telephone numbers for the specified period made up, starting since 1998, 375 thousand numbers, including 174,7 thousand numbers in Nizhny Novgorod branch for 4 years. In addition, one more aspect of this industry development is the replacement of analog switching equipment with digital one. The equipment replacement allows for improving the quality of provided services, for introducing additional accompanying services, thus improving servicing and creating competitive advantages at the market. In 2001 the network digitalization made up 33%. In 2003 this indicator is equal to 48%.

The tendencies of long distance and international communication services development are connected with the development of alternative communication services, such as IP-telephony, Internet, etc.

This results in decrease of share of incomes from long distance and international communication services in the total share of proceeds. Simultaneously, the dynamics of incomes from long distance and international communication services is affected by the decrease of average profit rate per call minute, which is connected with redistribution of outgoing traffic of long distance communication between intrazonal and trunk traffic; and for international communication between the Baltic States, CIS countries and foreign countries. From 2000 to 2003 the rate of decrease of average profit rate for long distance communication is 7,4%; for international communication – 2,04%.

For the last three years the largest growth rate is with new communication services, such Internet, ISDN, IP-telephony, intelligent platform services, etc.

The tendencies of major activity development for 1998 – 2002 are detailed below.

1998

During the year all branches of communication had been actively developed in OJSC “Nizhegorodsviyazinform”.

The capacity of local telephone communication achieved 782, 2 thousand numbers. The number of software-controlled ATXs achieved 36, 2% of the total installed capacity of ATXs. The introduction of time-based billing for local calls was continued.

Installed capacity of all software-controlled ATXs made up 556, 0 thousand numbers, out of them 537 thousand numbers or 68, 75 of the total capacity were in operation.

The second stage of SDH network on synchronous systems of transmission with the application of SMS-2500/SMS-600 multiplexers was commissioned.

In 1998 OJSC “Nizhegorodsviyazinform” started the reconstruction of long distance intrazonal telephone network (replacement of analog transmission systems with digital ones). The first stage of fiber-optic cable network was constructed in the oblast, 3780 digital communication channels were organized, and additionally long distance pay phones with electronic plastic card for payment were installed. “Service telephone card” system (“STC”) was commissioned; this system allows for providing services of telephone communication automatically and via an operator by using prior paid telephone card from any phone (residential, institutional, hospital, institute, and hotel).

New services were commissioned: “video telephone” in Nizhny Novgorod and Dzerzhinsk, and “video conference” in Nizhny Novgorod.

Documentary communication is carried out via communications switching center – T2- RNI with the capacity of 820 channels and via channel switching exchange AT- DT- Nikola –Tesla (Yugoslavia) with the capacity of 2000 channels for 1000 numbers. Connection to the world’s networks, the networks of Russian Federation and CIS is in accordance with protocols IP, X.25, FRAME RELAY (Internet, INFOTEL, SPRINT, Rospak).

The intensive activity to develop communication means allowed the issuer to achieve high financial-economic results.

1999

The company's activity was directed to the solution of traditional tasks for basic communication services development and for the solution of priority tasks: further network digitalization; development and introduction of new technologies and products (Internet, ISDN).

During the year 11 new ATXs and 5 remote substations of total capacity of 52 thousand numbers were commissioned, this allowed to bring the total installed capacity to 808, 1 thousand numbers. By the end of 1999 the installed capacity of digital ATXs made up 241, 2 thousand numbers or 30% of the total network capacity. Total volume of subscriber lines, switched from old facilities to the new ones, made up about 18 thousand numbers. Total volume of digital streams in SDH transport network was increased by 357 units and amounted to 798 of 2 Mbps streams. At rural networks digital transmission systems "IKM-30", "IKM-15" and "Radan" microwave radios were installed and commissioned, this allowed to bring the level of digital channels to 68% of the total number in operation.

Due to connection of secondary and primary groups at intraoblast communication lines and downloading of digital SDH network of Nizhny Novgorod oblast and also due to the commissioning of digital microwave radios, the extension of digital telephone channels increased by 79,4 thousand channels/km. The gain of outgoing automatic channels of automatic long distance communication made up 460 channels. The results of local and long distance telephone network development allowed for the increase of the traffic by 21%.

Implementation of new services is one of the most important tasks of OJSC "Nizhegorodsviyazinform". The company provided the following services to the population:

- Additional types of servicing;
- All kinds of access to Internet;
- ISDN, video telephone, video conferencing;
- Service Telephone Card (STC).

In 1999 "Internet for All" service was introduced. About 1500 Internet subscribers were registered by the end of the year.

2000

In order to hold the positions at the market and to increase the competitiveness of its services, the Company intensively developed its network and in particular: it modernized the existing network and continued the construction of the new one with the use of advanced technologies, which served as the foundation for mastering new services and occupation of market segments. To achieve this digital ATXs were commissioned, the company builds digital transmission systems by using hi-tech equipment, introduces digital subscriber radio access equipment, ATX equipment.

In 2000 alternative operators of communication became more active, especially at the market of data transfer services and Internet. In the nearest future it is possible to expect the emergence of new competitors at this market, and in the first place from natural monopolists, having or constructing transport network (RAO "Unified Energy Systems of Russia", RAO "Gazprom", Russia's Ministry of Railroads).

Target strategy of OJSC "Nizhegorodsviyazinform" for the period to 2004 is to increase competitiveness and to develop the production on the basis of already available infrastructure.

One of the main conditions of increasing services competitiveness is application of new technologies (ISDN, Internet, telephone "+", voice mail, IP-telephony). It should be noted, that Internet is one of high profitable services, for two years of intensive development the company's share at Internet market in Nizhny Novgorod reached 30% and in Nizhny Novgorod oblast – about 90%. In 2000 the project "Internet to schools, hospitals, museums of Sovetskyi district of Nizhny

Novgorod” was completed (18 schools, 3 hospitals, central library system – in total 45 organizations). This allowed for increasing the number of Internet users to almost 5000. As of 01.01.2001 the number of Internet subscribers was 4 951 (1400 – as of 01.01.2000). Service-Center was established in Nizhny Novgorod.

In 2000 the company continued downloading DECT “DRA-1900” radio access system equipment. As of 1.01.2001 in the oblast there are 960 telephones with radio access.

Nizhny Novgorod city’s ATX expanded its SDH transport network by commissioning a new transport node St-20 in linear mode of STM-4 level.

Installed capacity of SDH transport network increased by 60 E1 vs. 1999 and as of 01.01.2001 made up 850 streams of E1.

As of 01.01.2001 the installed capacity of city’s software-controlled ATXs made up 619231 numbers or 83, 9% of total installed capacity.

By the end of 2000 city’s ATXs in Nizhny Novgorod and in 10 towns of the oblast with the total capacity of 523496 numbers were in operation.

In 8 towns of the oblast city’s ATXs were in trial operation. Total capacity of ATXs in these towns made up 43456 numbers.

Time-based billing system of the specified ATXs is in operation since 01.01.2001.

As of 01.01.2001 the installed capacity of rural, software-controlled ATXs made up 2048 numbers or 2, 3% of total capacity of rural ATXs.

During the year the ATXs of total capacity of 40,8 thousand numbers were put into operation, including in Nizhny Novgorod – 20 thousand numbers, 41 thousand telephone sets were installed, including 35,5 thousand in apartments of citizens. All this allowed to bring the number of telephones per 100 residents in the oblast by the end of the year to 21, 9.

In 2000 the company actively continued to install universal payphones of TMC-БМ-01 type of “Kvarts” make. During the year 116 universal payphones were additionally installed at city’s and rural telephone networks.

2001

The Company’s policy in relation to traditional communication services is oriented to holding the positions at the market with simultaneous increase of degree of satisfaction of solvent demand.

For the greatest satisfaction of solvent demand the Company continued intensive activity for the network development, enhancement of communication means and technological processes, improvement of quality and increase of provided services volumes.

Special attention was paid to the application of new technologies (ISDN, Internet, Telephone Plus, voice mail, IP-telephony). During the two years of intensive development, due to flexible tariff policy and ongoing perfection of its technological base, the Company became the leader.

Current modernization and the development of telephone communication network are aimed at creation of modern, hi-tech, multi-service telecommunication network. When designing a digital network the basis is the strategy of deploying digital ATXs in such a way so that there is a capability of access to digital network services in all districts of the city, and in the first place in the centers of business activity. Thus, the most active part of Nizhny Novgorod business already has the capability of using modern communication services in its activity.

OJSC “Nizhegorodsviyazinform” is consistently realizing market strategy of integrated growth, leading to achieving the Company’s strategic goal – to be the leader (managing interregional company), and namely – creation and realization of scope of competitive services, getting maximum possible profit and increasing investments efficiency.

Major essential events of the year contributing to improvement of the activity results:

- ATXs of total capacity of 40,0 thousand numbers, including 20 thousand numbers in Nizhny Novgorod were put into operation;

- 44, 3 thousand telephones were installed, including 19, 6 thousand in Nizhny Novgorod, out of them 15, 8 thousand telephones were installed in apartments. This allowed to bring the number of telephones per 100 residents, which as of 01.01.2002 in the oblast was 22,7, and in Nizhny Novgorod – 32,5;
- The project “Internet to schools, hospitals, museums” for Leninskyi district of Nizhny Novgorod was completed (21 school, 1 hospital, 1 library);
- The development of service centers network in the oblast is continued, 5 centers were established in Nizhny Novgorod oblast in 2001;
- Additional services were provided to 73800 subscribers;
- ISDN services were provided to 467 subscribers;
- 82,4 % of rural ATXs are equipped with automatic number identifier function, that allowed to organize automatic long distance telephone communication for rural subscribers;
- For 163 subscribers the telephones were installed by using DRA radio equipment;
- 52 universal payphones were installed;
- The first stage of SDH transport network was put into operation at Nizhny Novgorod city’s ATX in 1997. Currently, in Nizhny Novgorod SDH network has three transport rings of total extension of 144 km (totally 213 km of fiber-optic cable were installed).

The Company pays special attention to the development of services to access the Internet. The Company designed and carries out the set of activities to expand the base of Internet users. In 2001 OJSC “Nizhegorodsviyazinform” took the leading positions in providing switched access to Internet. The users are provided the entire range of services of data transfer network, starting from switched access to organization of gateways, allocated channels and creation of corporate network for customer data transfer. ISDN, xDSL digital access technologies are applied.

Exclusive service “Internet for All” provides the access to Internet over long distance communication channels. In Nizhny Novgorod oblast this service provides 80% of all Internet users.

The Company continued realization of the project of creating Internet-clubs, providing session access to the network. 6 Internet-clubs are operating, 3 of them are in Nizhny Novgorod.

In 2000 the company won the tender for realization of the program “Internet to schools, hospitals, museums”. In 2001 21 school, 1 hospital and 1 library were connected to Internet via an allocated channel.

The first stage of construction of corporate multi-service network of data transfer is completed; the network includes 21 nodes in Nizhny Novgorod and 18 nodes in Nizhny Novgorod oblast. The network is built with fiber-optic cable. 19 nodes of access to data transfer network in Nizhny Novgorod and 9 nodes of access in Nizhny Novgorod oblast were put into operation and modernized.

The company continued the activity for connecting the subscribers to digital network with integration of ISDN services. By the end of 2001 the number of operated ports amounted to 467. Within the terms of providing ISDN services the company realized the tasks of combining remote segments of corporate network of data transfer and organization of video conferences for subscribers of Nizhny Novgorod and Dzerzhinsk. The program of telemedicine development on the basis of ISDN equipment was continued. There were a number of consultations (video conferences) with participation of medical personnel from Nizhny Novgorod and leading medical institutes and hospitals from Moscow.

The realization of the project for creating the network of Service Centers was continued. The main idea of the project is to provide end-to-end services to customers as regards the organization of the network on the basis of advanced technologies: from installation of a telephone to the development and realization of corporate network as per the customer’s requirements. By the end of the year 5 Service Centers were in operation in Nizhny Novgorod and in Nizhny Novgorod oblast.

2002

Under the conditions of the company's incorporation the paramount issue is to work out unified technical policy, which will serve for the solution of the major company's task – modernization of the network and meeting the demand for OJSC “VolgaTelecom” services.

The policy as regards traditional communication services is oriented for holding the positions at the market with simultaneous increase of the degree of meeting solvent demand. For this the company continues intensive activity in the network development, improvement of communication means and technological processes on the basis of modern equipment, increase of quality and volume of offered services.

By the end of the year the number of city's ATXs was 928 with total installed capacity of 3 532 619 numbers. During the year the city's ATXs' capacity increased by 367 thousand numbers.

By the end of 2002 time-based billing system of calls cost was in operation Nizhny Novgorod, Orenburg, Penza oblasts and in the Republic of Mordoviya.

The activity in installation and putting into operation of ANI function at rural telephone networks was continued. Rural ATXs capacity with ANI function made up 643 103 numbers.

With the development of new modern kinds of communication, the demand for telegraph services is gradually going down.

Wire broadcasting is a loss-making sector, so OJSC “VolgaTelecom” carries out the actions for changing-over rural wire broadcasting into on-air broadcasting, which allows to reduce total costs of wire broadcasting and increase the profitability of city's broadcasting centers. The program of wire broadcasting change-over into the on-air broadcasting is developed for each branch of the company.

OJSC “VolgaTelecom” network of on-air broadcasting includes 73 low power radio broadcasting transmitters of less than 1 KW power and 19 powerful transmitters of 1 KW power and above.

In a number of branches of OJSC “VolgaTelecom” there are in operation TV transmitters for receive and translation of TV programs. At the same time the company is actively developing the existing networks of cable TV in Orenburg and Samara branches, in the branches of Chuvash Republic and the Republic of Maryi El, and is constructing new systems of cable TV. It is planned to construct new cable TV systems, in Nizhny Novgorod including. The first stage of the construction will be realized in 2003 and is designed for connecting 75 000 subscribers.

The development of new communication services is of great importance for OJSC “VolgaTelecom”.

One of the main tasks is to strengthen positions at the market of hi-tech kinds of communication. All branches of OJSC “VolgaTelecom” provide services of Internet access both by dial-up technology and over allocated lines.

By the end of 2002 in Povolzhskiy region the number of users with switched access to Internet was about 204 thousand, 107 thousand of them use the services of OJSC “VolgaTelecom”. Thus, the company's share at the market of switched access to Internet is 52%.

The number of customers for access services over the allocated line is about 1600, which as per OJSC “VolgaTelecom” estimation makes up from 45 to 50%.

The service of wideband digital access is being actively implemented. By the end of 2002 in OJSC “VolgaTelecom” the number of connection points with xDSL technology was 583, 48% out of them were in Nizhny Novgorod branch.

IP-telephony is a perspective service. The development of IP-telephony service is planned to be carried out in 2 directions:

- The first one is installation of IP-telephony nodes for long distance and international communication. The service is provided by application of pre-paid cards;
- The second direction of IP-telephony development is a “package” service; provision of access to PSTN via data transfer network. Here the last “mile” is xDSL wideband access. This is the first stage of change-over to NGN (Next Generation Network) with packet switching.

The other large project is the construction of Intelligent network based on a single platform. In 2002 the contract was signed with “Huawei Technologies” company for Tellin® Intelligent platform. On the basis of this platform 5 intelligent services will be provided: 4 services from CS1 set (free of charge call - **FPH**, voting over telephone - **VOT**, call with additional payment - **PRM**, call by pre-paid card - **PCC**), and one service (universal access number - **UAN**) – for testing and further certification. The first stage of realizing Intelligent network in Nizhny Novgorod branch is planned for 2003. The Intelligent network is the most efficient method of additional services introduction. The construction of Intelligent network will serve to development of small and medium business, to the development of informational services and will allow to attract about 70 thousand users in Nizhny Novgorod oblast only. The number of intelligent services users in the entire interregional company is estimated to be 200 000. The construction of Intelligent network in OJSC “VolgaTelecom” Nizhny Novgorod branch is the initial stage of the pilot project of constructing Federal Intelligent network; the project is organized by OJSC “Sviayzinvest” with the support of the Ministry for communication. During the trial operation, which will last for three months, it is planned to test the interface over INAP-R protocol with Intelligent platforms of Siemens and Alcatel in Moscow and Perm.

Intelligent network construction in OJSC “VolgaTelecom” branches is planned for 2004. To organize SSP nodes it is considered to additionally equip the existing nodes of SN services with the platforms of computer telephony “Svetets” and “Protei” already being operated in the branches.

The priorities in the area of regional development:

The following regions are of most priority in 2003 – Nizhny Novgorod, Samara and Saratov oblasts.

The next are – Orenburg and Ulyanovsk oblasts, the Republic of Udmurtiya.

Less priority regions – the Republic of Mordoviya, the Republic of Maryi-El, the Republic of Chuvashiya, Penza and Kirov oblasts.

5.3. Data on the size of remuneration, benefits and/or compensation of expenses for each management body of the issuer

THE COMPANY'S GENERAL DIRECTOR

Criteria of determination and the size of remuneration of the Company's General director are stipulated by the terms and conditions of the Labor contract approved by the Board of directors (Minutes № 2 of April 10, 2003).

THE COMPANY'S BOARD OF DIRECTORS

The amount of income of all members of the Board of directors for 2002: **5 490 797 rubles.**

The amount of income of all members of the Board of directors for 2003 will be provided in the report for quarter I of 2004.

In accordance with the Provision on the Board of directors of a new wording approved by joint (extraordinary) general meeting of OJSC "VolgaTelecom" shareholders on March 26, 2003 (minutes №2 of March 27, 2003), members of the Company's Board of directors, during the period of their duties execution, are paid remuneration and compensations of expenses related to their execution of functions of the Board of directors members.

The remuneration to the members of the Board of directors consists of the quarterly and annual ones.

Quarterly remuneration to each member of the Board of directors is fixed as a per cent of the Company's proceeds from sales of goods, products, works and services for the report quarter as per the data of the Company's accounts.

For the Chairman of the Board of directors the remuneration is fixed with coefficient of 1.3.

The remuneration of a member of the Board of directors is decreased by:

30% - in case of his (her) presence at less than half of sessions of the Board of directors held in the form of joint attendance;

100% - if he (she) participated in less than half of all held sessions of the Board of directors.

For the quarter, in which the reelection of the Board of directors occurred, the remuneration to a member of the Board of directors is paid proportionally to the time worked in this quarter.

Annual remuneration for the entire structure of the Company's Board of directors is fixed as a per cent of the Company's net profit for the report year as per the data of the Company's accounts.

The size of annual remuneration of each member of the Board of directors is defined by the resolution of the Company's Board of directors simultaneously with preliminary approval of the Company's annual report.

The norms (percent) of deductions for calculating quarterly and annual remunerations are defined by the resolution of the shareholders general meeting electing this structure of the Board of directors.

In accordance with the resolution of the shareholders general meeting (minutes №3 of July 10, 2003) for the members of the Board of directors the following norms (percent) of deductions are approved for calculating quarterly and annual remuneration to the members of the Board of directors:

- in the amount of 0,006% of the Company's proceeds from the sales of goods, products, works and services for the report quarter as per the data of the Company's accounts to each member of the Board of directors;
- in the amount of 0,4% of the Company's net profit for the report year as per the data of the Company's accounts for the entire structure of the Company's Board of directors.

THE COMPANY'S MANAGEMENT BOARD

The amount of income of all members of the Management board for 2002: **7 379 414 rubles.**

The amount of income of all members of the Management board for 2003 will be provided in the report for quarter I of 2004.

In accordance with article 6 of the Provision on the Company's Management board of a new wording approved by joint (extraordinary) general meeting of OJSC "VolgaTelecom" shareholders of march 26, 2003 (minutes №2 of march 27, 2003) the members of the Company's Management board during the period of their duties execution are paid remuneration and compensations of expenses related to their execution of the functions of the members of the Management board.

Remuneration is fixed in percent of the Company's net profit for the report quarter as per the data of the Company's accounts and is paid quarterly.

The size of the paid remuneration and also its distribution between the members of the Management board is defined by the resolution of the Company's Board of directors by the proposal of the Chairman of the Management board.

The norms (percent) of deductions for calculating remunerations are defined by the resolution of the Board of directors.

By the resolution of the Board of directors (minutes №2 of July 15, 2003) the norms (percent) of deductions for calculating quarterly remuneration for the entire structure of the Company's Management board are defined in the amount of 0,43% of the net profit for the report quarter as per the data of the Company's accounts.

The data on income of persons being members of several management bodies of the issuer are provided in the data on joint management body – the company's Board of directors.

5.4. Data on the structure and scope of competence of the bodies controlling the issuer's financial-economic activity

Internal control over financial-economic activity of OJSC "VolgaTelecom" is carried out by:

1. Auditing committee elected at annual meeting of shareholders;
2. Department of internal audit – structural subdivision independent of the Company's executive bodies, its activity is controlled by the Board of directors. The department of internal audit checks financial-economic activity of OJSC "VolgaTelecom" branches and their structural subdivisions.

The tasks and the functions of the specified structural subdivision, the procedure of its activity, the procedure of employees appointment and the requirements specified to them are defined by the internal document (Provision on the Department of internal audit), approved by the Company's Board of directors.

External control:

For checking and confirming the correctness of the annual financial statements, the Company yearly involves professional auditor. Auditing company CJSC "Ernst & Young Vneshaudit" is approved as the Company's auditor for 2003.

The competence of the auditing committee includes:

- checking the reliability of data contained in the reports and other financial documents of the Company;
- identifying the facts of breaking the order of keeping the accounts and providing financial statements as established by Russian Federation legal acts;
- checking the observation of legal norms while calculating and paying the taxes;
- evaluation of economic expediency of the Company's financial-economic operations.

Checking (audit) of the Company's financial-economic activity is carried out by the Auditing committee based on the results of the Company's activity for a year.

Checking (audit) of the Company's financial-economic activity is also carried out at any time:

- By the initiative of the Company's Auditing committee;
- By the resolution of the Company's shareholders general meeting;
- By the decision of the Company's Board of directors;
- By the demand of the shareholder (shareholders) of the Company, owning in aggregate not less than 10 percent of voting shares of the Company concerning all issues of the competence of the general meeting of shareholders by the date of presentation of the requirement.

By the request of the Auditing committee, the persons occupying posts in managing organs of the Company are obliged to provide documents on financial-economic activity of the Company.

The procedure of activity of the Auditing committee, and also the size and procedure of remuneration payment to the members of the Auditing committee are defined by the Provisions on the Auditing committee of the Company, approved by the general meeting of shareholders.

Article 17 of the issuer's Charter:

"For carrying out control over financial-economic activity in the Company there is created an Auditing committee, special structural subdivision carrying out the functions of internal control and also an independent auditor is involved.

The Auditing committee is an independent body of the Company's control, elected at annual general meeting of shareholders for the period till the next annual general meeting of shareholders in the quantity of 5 persons.

The authority of separate members or of the entire structure of the Auditing committee may be early terminated by the resolution of the shareholders general meeting.

In case of early termination of authorities of the members of the Auditing committee, the authority of a new structure of the Auditing committee is effective till the next annual general meeting of shareholders.

In case when the quantity of the members of the Auditing committee becomes less than the half of the elected members of the Auditing committee, the Board of directors is obliged to call extraordinary general meeting of shareholders to elect the new structure of the Auditing committee. The remaining members of the Auditing committee carry out their functions till the election of the new structure of the Auditing committee at the extraordinary general meeting of shareholders.

The competence of the Auditing committee includes:

- checking the reliability of data contained in the reports and other financial documents of the Company;*
- identifying the facts of breaking the order of keeping the accounts and providing financial statements as established by Russian Federation legal acts;*
- checking the observation of legal norms while calculating and paying the taxes;*
- identifying the facts of breaking Russian Federation legal acts in accordance to which the Company carries out financial-economic activity;*
- evaluation of economic expediency of the Company's financial-economic operations.*

Checking (audit) of the Company's financial-economic activity is carried out by the Auditing committee based on the results of the Company's activity for a year.

Checking (audit) of the Company's financial-economic activity is also carried out at any time:

By the initiative of the Company's Auditing committee;

By the resolution of the Company's shareholders general meeting;

By the decision of the Company's Board of directors;

By the demand of the shareholder (shareholders) of the Company, owning in aggregate not less than 10 percent of voting shares of the Company concerning all issues of the competence of the general meeting of shareholders by the date of presentation of the requirement.

By the request of the Auditing committee, the persons occupying posts in managing organs of the Company are obliged to provide documents on financial-economic activity of the Company.

The procedure of activity of the Auditing committee, and also the size and procedure of remuneration payment to the members of the Auditing committee are defined by the Provisions on the Auditing committee of the Company, approved by the general meeting of shareholders.

In order to secure permanent internal control over all economic operations, the special structural subdivision is created in the Company, not dependent on executive bodies of the Company. Its activity is supervised directly by the Board of directors of the Company.

The functions of the specified structural subdivision, the procedure of its activity, the procedure of appointment of the workers, requirements to them are defined by an internal document approved by the Board of directors of the Company.

For checking and confirming the correctness of the annual financial reporting, the Company annually employs a professional auditor who is not connected by property interests with the Company or its shareholders.

The auditor carries out auditing of financial-economic activity of the Company according to legal acts of the Russian Federation on the basis of the contract concluded with it.

The General meeting of shareholders approves the auditor of the Company. The terms and conditions of the contract concluded with the auditor, include the size of payment for its services, and are approved by the Board of directors of the Company.

Auditing of the Company's activity should be carried out at any time by the demand of shareholders with cumulative share in the authorized capital of 10 percent or more. Shareholders - initiators of auditing submit a written requirement to the Board of directors which should contain the cause of requirement, the name (names) of shareholders, quantity and category (type) of shares belonging to them, the signature of the shareholder or of his authorized proxy. If the requirement is signed by the authorized proxy, the document confirming his power of attorney should be enclosed too".

14.11.2003

The rights granted by shares to their owners:

The rights of a shareholder for getting the declared dividends:

The owners of A type preferred shares have the right for getting annual fixed dividend excluding the cases stipulated by the Charter.

Total amount paid as a dividend under each A type preferred share is fixed in the amount of 10% of the Company’s net profit based on the results of the last fiscal year divided by the number of shares which make up 25% of the Company’s charter capital. If the sum of dividends paid by the Company under each ordinary share in the specified year exceeds the amount due to payment as dividends under each A type preferred share, then the size of dividends paid under the latter should be increased to the size of dividends paid under ordinary shares.

Dividends under preferred shares may be paid at the expense of the Company’s funds specially designated for this.

The resolution on the payment of annual dividends, the size of annual dividend and the form of its payment under the shares of each category (type) is adopted by shareholders general meeting.

Dividends under A type preferred shares are paid during the time period set by the resolution of shareholders general meeting on the payment of the Company’s annual dividends. The specified time period is set not later than the end of the fiscal year in which the resolution on payment of annual dividends was adopted.

Dividends declared by the Company may be paid both in cash and by other property in case, if the Company’s general meeting of shareholders adopted the resolution on payment of dividends not in money form.

The rights of a shareholder – owner of preferred shares for participation in shareholders general meeting with the right of vote on the issues of its competence in cases, procedure and on conditions set in accordance with legislation on joint stock companies:

The owners of A type preferred shares have the right to participate in shareholders general meeting with the right of vote while solving the issues on the Company's reorganization and liquidation, and also on the issue of introducing addenda and changes to the Company's Charter, in case when these changes are limiting the rights of the said shareholders.

The owners of A type preferred shares have the right to participate in shareholders general meeting with the right of vote on all the issues of the agenda in case, when the shareholders meeting irrespective of the reasons did not adopt the resolution on payment of dividends or the resolution was adopted on non-complete payment of dividends under A type preferred shares. This right arises for the owners of A type preferred shares since the meeting following annual meeting of shareholders at which the resolution on payment of dividends was not adopted, and stops since the moment of the first payment of dividends under the specified shares in the full size.

The rights of a shareholder – owner of preferred shares of specific type for their conversion into ordinary shares or preferred shares of other types and the procedure of carrying out such conversion:

The issuer's charter does not stipulate the possibility of such conversion

The rights of a shareholder for getting a part of the issuer's property in case of its liquidation:

A shareholder – owner of A type preferred shares has the right in accordance with the issuer's charter to get a part of property left after its liquidation proportionally to the number of shares at his disposal.

Other data on shares provided by the issuer at its own discretion:

9 000 pieces of A type preferred shares – the quantity of paid off securities due to the issuer's reorganization

Additional issues of the issuer's preferred registered paperless shares were consolidated on **14.11.2003**. The date of state registration of the first issue of the consolidated ones – 30.09.1996 (№ 32 – 1 – 1375).

The Issuer may appoint additional paying agents and cancel such appointments. Official notification of the Issuer on the said actions is published by the Issuer during the period not later than 10 (Ten) business days following such appointments or their cancellation in "Vedomosty" newspaper.

If the Bonds repayment date falls on a day-off, irrespective if it is a state holiday or a day-off for settlement operations, then the due sum is paid on the first business day following the day-off. The Bond's Owner has no right to demand interest charging or any other compensation for such a delay in the payment.

The Bonds are repaid at the face value.

The Bonds are repaid in Russian Federation currency by non-cash method in favor of the Bonds owners.

It is presumed that nominal holders – National Depository Center (NDC) depositors are authorized to receive the repayment sums under the Bonds. NDC depositor and/or other person not authorized by its clients to receive the repayment sums under the Bonds, not later than on the 3-rd (Third) business day prior to the established date of the Bonds repayment, provides to NDC the list of Bonds owners, this list should contain all the requisites, specified below in the List of owners and/or nominal holders of the Bonds.

The Bonds repayment is made in favor of the Bonds owners being such as of the end of the NDC operation day, preceding the sixth day prior to the date of the Bonds repayment (hereinafter – "The date of making up the list of owners and/or nominal holders of the Bonds").

Fulfillment of obligation with respect to the owner, included into the list of owners and/or nominal holders of the Bonds, is recognized to be proper including the case when the Bonds are alienated after the Date of making up the list of owners and/or nominal holders of the Bonds.

Not later than on the 2-nd (Second) business day prior to the date of the Bonds repayment, NDC provides the Issuer and/or Paying agent with the list of owners and/or nominal holders of the Bonds, made up on the Date of making up the list of owners and/or nominal holders of the Bonds, the list includes the following data:

a) Full name of the person, authorized to receive the repayment sums under the Bonds.

In case the Bonds are transferred by the owner to a nominal holder and the nominal holder is authorized to receive the repayment sums under the Bonds, the full name of the nominal holder is indicated.

In case the Bonds have not been transferred to a nominal holder and/or a nominal holder is not authorized to receive the repayment sums under the Bonds, full name of the Bonds owner is indicated (the owner's surname, name, patronymic – for a natural person);

b) The number of Bonds, tallied at the owner's custody account or at interdepository account of the nominal holder of the Bonds, authorized to receive the repayment sums under the Bonds;

c) the location and the mail address of the person, authorized to receive the repayment sums

under the Bonds;

d) requisites of the bank account of the person, authorized to receive the repayment sums under the Bonds, and namely:

- account number;*
- the bank's name, where the account is established;*
- the bank's correspondent account, where the account is established;*
- bank's identification code of the bank, where the account is established;*

e) identification number of the taxpayer of the person, authorized to receive the repayment sums under the Bonds;

f) tax status of the person, authorized to receive the repayment sums under the Bonds (resident, non-resident with permanent representation office in Russian Federation, non-resident without permanent representation office in Russian Federation, etc.).

The Bonds Owners, their authorized persons, including NDC depositors independently keep track of completeness and actuality of requisites of bank's account, provided by them to NDC.

In case of non-providing or untimely providing to NDC of the said requisites, the performance of such obligations is carried out to a person who made a claim to meet the obligations and who is the owner of the Bonds on the date of making the claim. The Issuer meets the obligations under the Bonds on the basis of NDC data.

Not later than on the 2-nd (Second) business day till the date of the Bonds repayment, the Issuer transfers the required money resources to the account of the Paying agent.

Basing on the list of owners and/or nominal holders of the Bonds, provided by NDC, the Paying agent calculates the sums of money resources due to payment to each person, indicated in the list of owners and /or nominal holders of the Bonds.

On the date of the Bonds repayment, the Paying agent transfers the required money resources to the accounts of persons authorized to receive the repayment sums under the Bonds and indicated in the list of owners and/or nominal holders of the Bonds.

In case one person is authorized to receive the repayment sums under the Bonds from several owners of the Bonds, then this person is transferred the total sum without breakdown for each owner of the Bonds.

Prescheduled repayment is not stipulated.

The size of interest income (coupon yield) under the bonds, the procedure and conditions of its payment:

The Bond Owner has the right to receive a fixed interest of the Bond face value (coupon yield).

The date of coupon payment	Coupon №	Coupon rate
23.05.2003	1-st coupon	4,75%
22.08.2003	2-nd coupon	4,75%
21.11.2003	3-rd coupon	16,50%
24.02.2004	4-th coupon	16,50%
24.05.2004	5-th coupon	15%
23.08.2004	6-th coupon	15%
22.11.2004	7-th coupon	15%
21.02.2005	8-th coupon	15%
23.05.2005	9-th coupon	15%
22.08.2005	10-th coupon	15%

21.11.2005	11-th coupon	13%
21.02.2006	12-th coupon	13%

The calculation of the payment sum for each coupon per one Bond is made by the following formula:

$$K_j = C_j * Nom * (T(j) - T(j-1)) / 365 / 100 \%$$

where

j – serial number of coupon period, j=1...12

K_j – the sum of coupon payment for each Bond

Nom – face value of one Bond

C_j – the size of the interest rate of the j-th coupon, in per cent annual

T(j-1) – the start date of the the j-th coupon period

T(j) – the end date of the j-th coupon period

The payment sum under the coupon is determined with the precision of one kopeck (rounding-up of the second figure after the comma is made in the following way: if the third figure is more or equal to 5, then the second figure is increased by 1, in case the third figure after the comma is less than 5, then the second figure after the comma is not changed).

If the payment date of coupon yield on any of the twelve coupons under the Bonds falls on a day-off, irrespective if it is a state holiday or a day-off for settlement operations, then the due sum is paid on the first business day following the day-off. The Bond's Owner has no right to demand interest charging or any other compensation for such a delay in the payment.

The Bonds are repaid in Russian Federation currency by non-cash method in favor of the Bonds owners. It is presumed that nominal holders – National Depositary Center (NDC) depositors are authorized to receive the repayment sums under the Bonds. NDC depositor and/or other person not authorized by its clients to receive the repayment sums under the Bonds, not later than on the 3-rd (Third) business day prior to the established date of the Bonds repayment, provides to NDC the list of Bonds owners, this list should contain all the requisites.

The Bonds repayment is made in favor of the Bonds owners being such as of the end of the NDC operation day, preceding the 6 (Sixth) day prior to the date of the Bonds repayment (hereinafter – “The date of making up the list of owners and/or nominal holders of the Bonds”).

Fulfillment of obligation with respect to the owner, included into the list of owners and/or nominal holders of the Bonds, is recognized to be proper including the case when the Bonds are alienated after the date of making up the specified list.

Not later than on the 2-nd (Second) business day prior to the date of the Bonds repayment, NDC provides the Issuer and/or Paying agent with the list of owners and/or nominal holders of the Bonds, made up on the Date of making up the list of owners and/or nominal holders of the Bonds for income payment.

The Bonds Owners, their authorized persons, including NDC depositors independently keep track of completeness and actuality of requisites of bank's account, provided by them to NDC. In case of non-providing or untimely providing to NDC of the said requisites, the performance of such obligations is carried out to a person who made a claim to meet the obligations and who is the owner of the Bonds on the date of making the claim. The Issuer meets the obligations under the Bonds on the basis of NDC data.

Not later than on the 2-nd (Second) business day since the date of coupon yield under the Bonds payment, the Issuer transfers the required money resources to the account of the Paying agent. Basing on the list of owners and/or nominal holders of the Bonds, provided by NDC, the Paying agent calculates the sums of money resources due to payment to each person, indicated in the list of owners and /or nominal holders of the Bonds.

On the date of coupon yield under the Bonds payment, the Paying agent transfers the required money resources to the accounts of persons authorized to receive the repayment sums under the Bonds and indicated in the list of owners and/or nominal holders of the Bonds.

In case one person is authorized to receive coupon yield sums under the Bonds from several owners of the Bonds, then this person is transferred the total sum without breakdown for each owner of the Bonds.

The list of owners and/or nominal holders of the Bonds, made up for the purposes of the Bonds repayment, is used for the purposes of the payment of yield under the twelfth coupon.

The yield under the twelfth coupon is paid simultaneously with the Bonds repayment.

8.7. Data on legislative acts regulating the issues of import and export of capital which may affect the payment of dividends, interest and other payments to non-residents

The basic legislative act regulating the issues of import and export of capital is RF Law № 3615-1 of October 9, 1992 "On currency exchange regulation and foreign-exchange controls".

A number of Federal laws ratify the agreement of avoidance of double taxation between Russian Federation and foreign countries. At present the policy of avoidance of double taxation is effective with over 50 countries.

When applying the provisions of international agreements of Russian Federation, a foreign organization should provide to a tax agent paying the income the confirmation of the fact that this foreign organization has a permanent location in the country with which Russian Federation has an international contract (agreement) regulating the issues of taxation, this confirmation should be verified by competent authority of appropriate foreign country. In case if this confirmation is executed in a foreign language, the tax agent is also provided the translation in Russian.

Upon providing by a foreign organization, having the right for receiving income, of the above said confirmation to the tax agent who pays the income prior to the date of the income payment in regard to which Russian Federation international agreement stipulates preferential tax treatment in Russian Federation, then this income is exempted from deduction of the tax at the source of payment or the tax is deducted at the source of payment at reduced rate.

The most important effective laws:

1. Federal law № 167-ФЗ of July 17, 1999 “On ratification of Agreement between RF Government and the Government of the Republic of Cyprus on avoidance of double taxation as regards the taxes for income and capital”.
2. Federal law №18-ФЗ of February 8, 1998 “On ratification of Convention between RF Government and the Government of French Republic on avoidance of double taxation and prevention of tax evasion and violation of the tax legislation as regards the taxes on income and property”.
3. Federal law № 65-ФЗ of March 19, 1997 “On ratification of Convention between RF Government and the Government of United Kingdom of Great Britain and Northern Ireland on avoidance of double taxation and prevention of tax evasion as regards the taxes on income and on increment value of property, and the Agreement between RF Government and the Government of United Kingdom of Great Britain and Northern Ireland of February 15, 1994 concluded in the form of exchange of notes on application of separate provisions of the Convention”.
4. Federal law № 38-ФЗ of February 26, 1997 “On ratification of the Agreement between RF and Swiss Confederation on avoidance of double taxation as regards the taxes on income and capital”.
5. Federal law № 42-ФЗ of February 26, 1997 “On ratification of the Agreement between RF Government and the Government of Canada on avoidance of double taxation and prevention of tax evasion as regards the taxes on income and property”.
6. Federal law № 158-ФЗ of December 18, 1996 “On ratification of the Agreement between RF and Federal Republic of Germany on avoidance of double taxation as regards the taxes on income and property”.
7. The Agreement between RF and the United States of America on avoidance of double taxation and prevention of tax evasion as regards the taxes on income and capital (Washington D.C., June 17, 1992).
8. Convention between the Government of the USSR and the Government of Japan on avoidance of double taxation as regards the income taxes (Tokyo, January 18, 1986).

8.8. Description of the procedure of taxation of incomes under placed and being placed issuing securities of the issuer

During 2003 the incomes were paid to legal and natural persons in the form of dividends.

The incomes were taxed in accordance with the norms established by chapters 23 and 25 of the Tax Code of Russian Federation:

- **The procedure of taxation of natural persons:**

- Residents

In accordance with item 2 of article 214 of Russian Federation Tax Code OJSC “VolgaTelecom”, being the source of income of natural persons-residents, received in the form of dividends, calculated and deducted the amount of tax separately for each taxpayer applicably to each payment of the specified income at the rate stipulated by item 4 of article 224 of this Code in the procedure stipulated by article 275 of this Code.

In regard to income from share participation in the activity of organization, received in the form of dividends, item 4 of article 224 of RF Tax Code sets the tax rate for income of natural persons-residents in the amount of 6%. However, article 275 of RF Tax Code being referenced to by article 214 of the Code sets a special procedure of defining the tax base for the income paid in the form of dividends:

The amount of tax, due to deduction from the income of taxpayer (resident) – beneficiary of dividends, is calculated by the tax agent proceeding from the total amount of tax calculated in the procedure established by this item and the share of each taxpayer in the total amount of dividends.

Total amount of tax is defined as the product of the tax rate established by sub-item 1 of item 3 of article 284 of this Code and the difference between the amount of dividends due to distribution between the shareholders (participants) in the current tax period, decreased by the amount of dividends due to payment by tax agent in accordance with item 3 of this article in the current tax period, and the amount of dividends received by the tax agent himself in current report (tax) period and previous report (tax) period, if these amounts of dividends did not participate earlier in the calculation while defining taxable income in the form of dividends.

On balance, to define the amount of tax on income paid to residents (legal and natural persons) in the form of dividends, computed tax rate was calculated, for OJSC VolgaTelecom” this rate amounted to **5,57%**. This rate is applied to deduct the tax from natural persons – residents.

The tax for income of natural persons in accordance with items 4, 6 of article 226 of RF Tax Code is deducted and transferred to budget on the day of actual payment of income.

- Non-residents

In accordance with item 2 of article 214 of Russian Federation Tax Code OJSC “VolgaTelecom”, being the source of income of natural persons – non-residents, received in the form of dividends, calculated and deducted the amount of tax separately for each taxpayer applicably to each payment of the specified income at the rate stipulated by item 3 of article 224 of this Code – 30%.

The tax for income of natural persons in accordance with item 4, 6 of article 226 of RF Tax Code is deducted and transferred to budget on the day of actual payment of income.

- **The procedure of taxation of legal persons:**

- Residents

In accordance with item 2 of article 275 of RF Tax Code OJSC “VolgaTelecom”, paying income in the form of dividends to legal persons-residents, is a tax agent and defines the amount of tax taking into account the peculiarities stipulated by this item of RF Tax Code:

The amount of tax due to deduction from the income of taxpayer (resident)-beneficiary of dividends is calculated by tax agent proceeding from the total amount of tax computed in the procedure established by this item and from the share of each taxpayer in the total amount of dividends.

The total amount of tax is defined as the product of tax rate, established by sub-item 1 of item 3 of article 284 of this Code (the rate of 6%), and the difference between the amount of dividends due to distribution between shareholders (participants) in current tax period decreased by the amounts of dividends due to payment by tax agent in accordance with item 3 of this article in current report (tax) period and previous report (tax) period, if these amounts of dividends earlier did not participate in the calculation while defining taxable income in the form of dividends.

On balance, to define the amount of tax on income paid to residents (legal and natural persons) in the form of dividends, computed tax rate was calculated, for OJSC VolgaTelecom” this rate amounted to **5,57%**. This rate is applied to deduct the tax from legal persons – residents.

For separate beneficiaries of income in the form of dividends – Unit investments funds – the tax was not deducted, as Unit investments funds being separate property complexes **without establishing legal person**, are not considered to be organizations for applying RF Tax Code, and hence they are not considered to be taxpayers of the profit tax. This status is confirmed by item 7.2.7 of Methodical recommendations on application of chapter 25 of RF Tax Code approved by Russia’s Tax and Duties Ministry order № БГ-3-02/729 of 12.12.2002.

The tax for income in the form of dividends in accordance with item 4 of article 287 of RF Tax Code is deducted and transferred to budget within 10 days following the day of income payment.

Non-residents:

In accordance with item 3 of article 275 of RF Tax Code OJSC “VolgaTelecom”, paying income in the form of dividends to legal persons – non-residents, is a tax agent and defines the amount of tax proceeding from the paid amount taking into account the rate stipulated by sub-item 2 of item 3 of article 284 of RF Tax Code – 15%.

Reduced rates (5% and 10%) were applied to separate beneficiaries of dividends in accordance with item 1 of article 312 of RF Tax Code on the basis of non-residents’ providing the documents confirming their permanent stay in the country with which Russian Federation has an international treaty (agreement) regulating the issue of preferential tax treatment.

The tax on income in the form of dividends in accordance with item 4 of article 287 of RF Tax Code is deducted and transferred to budget within 10 days following the day of income payment.
